

# Joselinbino J

## OBJECTIVE

Being a committed team player, want to be a part of a renowned organization, to contribute towards the growth of the Organization, based on my expertise and to further my personal capabilities by learning from the new exposure within the structure organization.

## WORK EXPERIENCE

**Visara Tech Solutions (India) Private Ltd** Jan 2024 – Present  
Software Associate

- Working as a backend and web application developer.
- Developing scalable backend systems using Java, ensuring optimal performance and responsiveness.
- Designing RESTful APIs to facilitate seamless communication between frontend and backend components.
- Developing user interfaces using tools such as HTML and CSS, with an understanding of JavaScript and libraries.

**Partnersoft Technologies Private Ltd, Chennai** Dec 2022 – Jul 2023  
Entry- Level Java Developer

- Worked as a software backend developer.
- Designed and implemented RESTful APIs to facilitate seamless communication between frontend and backend components.
- Worked collaboratively in Agile environments, participating in sprint planning, stand-ups, and delivering high-quality features within tight deadlines.

## PROJECTS

### Video Conference Application:

- Contributed to the development of the video conferencing project, specializing in backend Java development.
- Designed and developed RESTful APIs for facilitating efficient communication between frontend and backend systems.
- Utilized technology including Java, WebRTC, and related frameworks.

### Digital Gold Web Application:

- Led full-stack development for the Digital Gold web Application, combining expertise in frontend technologies (HTML, CSS, JavaScript) with backend implementation using Java Spring Boot and MySQL database.
- Integrated frontend components with Java Spring Boot backend, facilitating smooth data flow and communication between the client and server.
